Net-Probe LLC was founded August 2008 by the group of engineers, who contributed heavily to the development, implementation and operation of leading national and international operators, including Sprint/Global One/Equant, TransTeleCom (TTK), Rtcomm.Ru and others.

Net-Probe designs and implements service-centric systems for network operators, clients and all who care about quality of provided services.

Our services and products include:

- SLA monitoring systems
- traffic monitoring and analysis
- OSS for multiservice networks
- Network operations outsourcing
- System integration
